FOCUS
COMMUNICATIONS PTY LTD

Your Next-Generation phone solution for your entire organisation [I]

Connect, communicate and collaborate
with our Unified Communications solution

Experience improved productivity and communications across your organisation
Bring together traditional and new technologies into one cost-effective platform designed for today's demanding communication needs and end user experience.

Our PBX is a sophisticated, full-featured cloud telephone system.
It offers all the advanced features and functionalities of a traditional on-premises PBX.

We take a 'one license covers all' approach, with one license your users will have access to all standard PBX features. The scalable technology means that you can expand your PBX when and where needed to suit your changing business needs.

Our PBX is not just a product, it's a solution designed to be simple to deploy, highly secure and reliable, easy to manage and feature-rich enhancing user productivity. All this underpinned by Australian based expert support.

It's cloud-based

It saves you time and money

It's scalable

It has state-of-the-art telephony features

It's mobile-friendly

It works everywhere

It works with what you already have

It unifies messaging .

Simplified billing structure
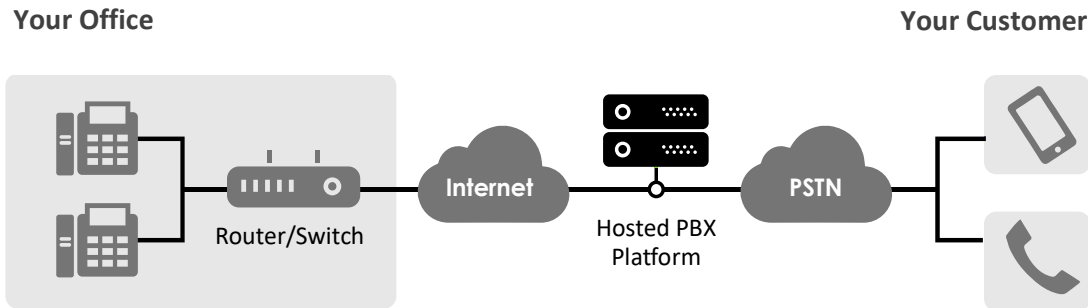

Large selection of brand leading hardware

Fast and easy set up

Pre-configured hardware (plug and play)
