

## Your Next-Generation phone solution for your entire organisation <sup>I</sup>

**Connect, communicate and collaborate  
with our Unified Communications solution**

**Experience improved productivity and communications across your organisation**  
Bring together traditional and new technologies into one cost-effective platform designed  
for today's demanding communication needs and end user experience.

**Our PBX is a sophisticated, full-featured cloud telephone system.  
It offers all the advanced features and functionalities of a traditional on-premises PBX.**

We take a 'one license covers all' approach, with one license your users will have access to all standard PBX features. The scalable technology means that you can expand your PBX when and where needed to suit your changing business needs.

Our PBX is not just a product, it's a solution designed to be simple to deploy, highly secure and reliable, easy to manage and feature-rich enhancing user productivity. All this underpinned by Australian based expert support.

**It's cloud-based**

**It saves you time and money**

**It's scalable**

**It has state-of-the-art  
telephony features**

**It's mobile-friendly**

**It works everywhere**

**It works with what you  
already have**

**It unifies messaging services**

**Simplified billing structure**

**Large selection of brand  
leading hardware**

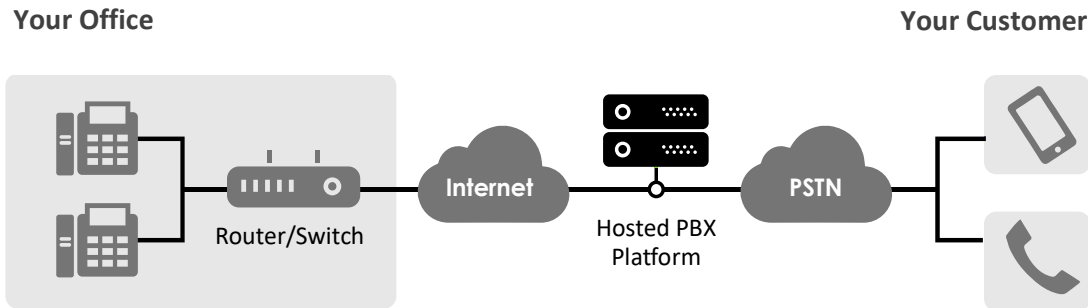

**Fast and easy set up**

**Pre-configured hardware  
(plug and play)**
